MEMORANDUM FOR: Deputy Director for Administration

FROM:

Chairman, Fine Arts Commission

SUBJECT: Membership of the Fine Arts Commission

1. In October 1987, the Fine Arts Commission issued an employee bulletin publicizing its existence and asking for volunteers. This call resulted in an uncommonly high response, including many with excellent credentials for membership. An ad hoc group of existing Commission members reviewed the applications and developed the attached suggested membership list. This memorandum asks your approval of our recommended membership, as is required by the Headquarters regulation governing the Fine Arts Commission.

2. The Commission received more than 70 responses, including applications for membership on the Commission and/or participation in its various Committees, as well as expressions of general interest in the business of the Commission. The applications included many with relevant backgrounds for work on the Commission or its particular Committees. We received more applications than needed for additional members, although there is no fixed membership limit. In order to arrive at the best possible list of prospective members, I had [redacted] at the time the DI representative to the Commission, form an ad hoc group to review the applications, conduct such interviews as might be necessary, and present a recommended membership list to me. While we have tried to keep the number on the Commission itself to a manageable number, we were able to accommodate many of the applicants by getting them involved in one Committee or another. I think the resulting slate brings a great deal of expertise and new energy to the Commission. It is also pretty well balanced by directorate and in other ways. We will be creating an External Buildings Committee soon and I will submit further names for that group.

3. I recommend that you approve the attached membership list. I will then notify the people on the list. If you have the time available, I would also like you to visit one of our meetings and provide your thoughts on the Commission's work.
